☒ Examiner's Statement of Reasons for Allowance

Art Unit: 3671

1. The following is an examiner's statement of reasons for allowance: After further consideration, it was determined that there is no motivation to combine Himes with linearly disclosed bearings in the fluid couplings of the prior art. The arguments stated in the appeal brief are deemed to be persuasive. Also, since the swivel bearings closer to the first end, in Waters, is greater in diameter than the bearing more distant to the first end, claim 20 defines over Waters.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. Shackelford whose telephone number is (703) 308-2978.
